## Introduction

WE ARE PROUD OF THIS EDITION OF PUBLIC LIBRARY STATISTICS BECAUSE IT IS THE BEGINNING OF A NEW ERA IN THE PRODUCTION AND ANALYSIS OF IOWA'S PUBLIC LIBRARY DATA.

IT IS GRATIFYING TO BE ONE OF THE VANGUARD PROVIDING THIS KIND OF INFORMATION WITH ITS FUTURE SPECIAL STUDIES, WHICH WILL ENABLE THE PUBLIC LIBRARY COMMUNITY TO PLAN AND BUILD THOSE PROGRAMS WHICH ARE SO VITAL TO ITS SURVIVAL AND GROWTH.

BARRY L. PORTER  
STATE LIBRARIAN

## EXPLANATORY NOTES

This edition of Iowa Public Library Statistics is a different publication than ever before. We hope it has been worth the wait.

Most importantly, it is the result of a computerized print-out resulting from the creation of a master-file of all 1979 public library survey information. We are indebted to the State Comptroller's Data Processing Division for their assistance in designing this process which is the first step in the emerging Iowa Public Library Statistics System. Later this year, the analytical phase will be available and farther down the road, special studies will appear.

There is much in this publication which at first glance will appear familiar. We have continued to use our standard service area size-group breakdowns; however, subtotals of data by group have been added wherever possible. More complete master summary charts are to be found at end of both the Financial and Materials Charts. Those sections have been refined by adding new fields of data and modifying other fields for clarity. Please see the notes at the beginning of each section so that you will not misinterpret any data contained.

There are necessary abbreviations within the charts because of the space requirements of the computerized print-out. We will endeavor to explain those where we think necessary. We would appreciate your comments about any of the column headings.

We have been aware during its production that this publication would arrive just preceding our request for new data for fiscal 1980. We could have chosen to create the system with 1978 data as a test for the process while producing 1979 Public Library Statistics by our older manual process. However, we chose to create the system and publish with 1979 data; otherwise you, the user, would not reap the benefits until the 1980 statistics were published.

In the future, you should be receiving your publication at an earlier date. With the creation of this system, data will be fed directly into the computer and our publication will be created much more rapidly by the pre-set programs established this year.

We welcome your observations, criticism or applause.

## ACKNOWLEDGEMENTS

I am grateful to:

Iowa State Comptroller's Data Processing Division, in particular, Mary Ryan for helping me to learn a new vocabulary and for her willingness to absorb knowledge about the library world and Mike La Fary, for clearing away administrative red tape;

Donna Wilcox, who patiently trudged across the very cold Capitol Complex for five months to do the very demanding input which made this publication possible. Donna's attention to detail and ability to absorb computer input technique was invaluable;

Jane Gray, for her constant support through this whole new endeavor. She was always willing to supply energy when the project seemed overwhelming and her ability with words solved many problems;

Doris Collette, for typing the narrative to this publication and her patience in transferring my very rough copy into polished pages, and

Barry Porter, for allowing me enough rope, not to hang myself but to create a neatly wrapped package.

Joan Brauer  
Statistics/Research Specialist

## General Notes and Symbols

Each of the following tables is divided into the following size groups.

- A - libraries serving less than 500
- B - libraries serving 500 - 999
- C - libraries serving 1,000 - 2,499
- D - libraries serving 2,500 - 4,999
- E - libraries serving 5,000 - 9,999
- F - libraries serving 10,000 - 24,999
- G - libraries serving 25,000 - 49,999
- H - libraries serving 50,000 and over

The population listed for each of those libraries is the actual population portion of that county served by the county library and reported to the Iowa State Library by the county librarians.

---- indicates no response  
0 (zero) as a response is always reported.

Of the 506 public libraries in Iowa, the following number responded to the following identified sections of the Public Library Survey:

- 492 reported Income,
- 489 reported Expenditures,
- 479 reported Acquisitions,
- 486 reported Holdings,
- 463 reported Circulation,
- 496 reported Additional Statistics, and

## Financial Information – Chart I

### INCOME - Part I - Columns 1 - 8

Total Operating (col. 6) and Total Capital (col. 7) - columns have been added to this edition.

Total Capital Fund not only reflects the amount, but designates the source as follows:

- B - Balance Carried Forward
- M - Municipal
- C - County
- F - Federal Revenue Sharing
- O - Other Federal
- G - Gifts, Donations & Other Capital

Total Receipts (col. 8) is the combination of Total Operating Income and Total Capital Income.

Miscellaneous (col. 5) - includes those funds entered on survey as Balance Carried Forward - Operating, Gifts and Donations and Other Receipts (lines 29, 34, 35 Survey Form)

Summary Operating Income In Dollars - all per capita data is based on operating income.

Total Capital Income has been added to this Summary in order to accumulate Total All Income.

### EXPENDITURES - Part II - Columns - 9-20

Column 19 is another addition reflecting all other costs. This column totals a final category of expenditures in order to apportion budget into the four standard categories: personnel, library material, plant operation and all other costs.

Summary Expenditures in dollars - Population of Reporting Places as well as Per Capita Expenditures have been added to this summary section.

Summary Expenditures By Percentages displays basic budget categories by percentage.

## Materials - Charts II, III

Because of restrictions of computerized printing this section has been divided into two parts. Acquisitions (Chart II) and Holdings and Circulation (Chart III).

> - a symbol which follows an entry in a column to indicate that that entry is the total of the columns in which it appears plus the column to its immediate right. It is referred to as a stretch.

### ACQUISITIONS - CHART II

A new field, Video, has been added within the Audio-Visual category.

# denotes the addition of uncataloged material to the total acquisitions count. Please note, therefore that the total does not necessarily represent the sum of the columns preceding Total Acquisitions.

Summary of Acquisitions will be found immediately following Chart II. Population of Reporting Places has been added to this Summary immediately following Number of Libraries Reporting.

### HOLDINGS/CIRCULATION - Chart III

Holdings are represented by title counts only.

We have applied a formula to convert volumes to titles where no title count was given. Since we no longer publish volume counts, we have tried to standardize title counts for later computer analysis.

In libraries serving less than 10,000, when only volume count was given, the following formula was applied:

$$90\% \times \text{volume count} = \text{title count}$$

In libraries serving over 10,000 the following formula was applied to volume count when no title count was given:

$$66 \frac{2}{3}\% \times \text{volume count} = \text{title count}.$$

T appears preceding the number in Total Titles when a formula has been applied to a volume count.

## Personnel, Hours Open, Salary Ranges – Chart V

Internal summaries by size group appear in Staff By Highest Earned Degree section of this chart.

Professional FTE reflects the total professional staff as determined by the reporting library and is not necessarily related to degrees held by staff.

The following four columns designate degrees held by those reported in Professional FTE column. Because of internal mathematics there can be up to  $\pm .2$  error in this column.

Hours Open has been rounded off to one decimal place, therefore, there can be up to a  $\pm .05$  error in this column. The column denotes official open hours of the library and not necessarily hours worked by full-time staff.

Salaries are reported in annual figures where possible.

H (hourly) and M (monthly) were used when it was not possible to determine annual salary.

PART I - GENERAL INFORMATION (Lines 1 - 18 Attached survey form.)

1. LIBRARY. For the purpose of this survey, a library is defined as any organized collection of printed books, periodicals, and any other graphic or audiovisual materials, with the services of a staff to provide and facilitate the use of such materials as are required to meet the informational, research, educational, or recreational needs of its users. A library may consist of a single unit, or it may be a multiunit organization having branches and other outlets administered by a single director under a unified budget.
2. PUBLIC LIBRARY. A library that serves free, all residents of a given community, district, or region. In addition to the tax-supported municipal, county, and regional public libraries, this definition includes privately controlled libraries, which render, without charge, general library service to a community. The public library is governed by a single board of trustees or authority, and is administered by a single director. Examples of public libraries are: (1) the city library with its branches, and (2) the county, multicounty, or regional library with outlets functioning as branches.
3. LIBRARY REGISTRANTS. (line 4) Number of persons holding cards issued from your library. Do not include others with cards issued by another library who are allowed to take out material from your library.
4. PERSON TO CONTACT CONCERNING INFORMATION REPORTED IN THIS SURVEY. (Line 7) If person has been named in one of the numbered lines above, indicate line number, if not please fill all sections of line 6.

Branch libraries are auxiliary units which have all of the following: (1) separate quarters, (2) a permanent basic collection of books, (3) a permanent staff, and (4) a regular schedule for opening to the public. They are, however, administered from a central unit.

PART II - LIBRARY STAFF (Lines 19 - 28 Attached survey form)

15. All paid full-time employees and FTE (full-time equivalent) paid part-time employees will be figured on the basis of a 40 hour week. If your library is open less than 40 hours all employees are classed as part-time for the purposes of this survey.
16. FULL TIME EMPLOYEES (line 19 col. a - e, line 24 f, g) report only paid employees who work a minimum of 40 hours a week.
17. PART-TIME EMPLOYEES (line 20 col. a - e; line 25 f, g) report all paid employees who work less than 40 hours.

18. FULL-TIME EQUIVALENTS OF PART-TIME EMPLOYEES. (line 21 and 26) To compute "full-time equivalents" (FTE) of part-time employees, take the number of hours worked per week by a part-time employee and divide it by 40. The following examples illustrate the method of determining full-time equivalents (FTE's), shown to one decimal place:
- A part-time employee who works 20 hours per week in a library having a 40 hour work week is computed as follows: 20 divided by 40 equals .5 FTE.
  - A part-time employee who works 20 hours a week in a library open less than 40 hours is computed exactly as above (a)
  - An employee who works in a library on a full-time basis during only one-half of the fiscal year would be counted as ONE PART-TIME EMPLOYEE on Lines 20, 25 and .5 FTE on Lines 21, 26 and 23, 28.
19. Do NOT include student and adult volunteers - that is, persons who work in the library, but who receive no pay for such work.

|------------------------|---|
| 2 full time @ 40 hr.   | = 80                                    |
| 3 part-time 2 @ 20 hr. | = 40                                    |
| 1 @ 10 hr.             | = 10                                    |

NOTE: It is important that you answer lines 51, 52, 54, 55 as well as 50 and 53. The Circulation-Acquisition sheets provided by the State Library for the past 2 years have enabled the recording of juvenile fiction, non-fiction, adult fiction and non-fiction separately. If you are in doubt about statistics for the Added during Fiscal Year column, please consult your sheets. If you do not have Held at End of Year statistics please try to estimate and put () around those figures.

50. TITLES. For reporting purposes, a title is a publication which forms a separate bibliographic whole, whether issued in one or several volumes, reels, discs, slides, or parts. It applies equally to printed materials, such as books and periodicals, as well as to audiovisual materials and microforms.

Report the number of items for which a separate shelflist card has been made. (SHEFLIST: A record of materials in a library, arranged in the order in which the materials stand when they are shelved or stored.) Thus, six copies of the same edition of a title count as one title; two editions of the same title which have been cataloged or recorded separately count as two titles; a set of six items for which six shelflist cards have been made counts as six titles; and two sets of the same edition for which one shelflist card has been made count as one title.

METHOD FOR ESTIMATING THE NUMBER OF TITLES IN THE COLLECTION: A library which does not maintain a title count of its various collections, and that cannot easily count the number of separate shelflist cards, should use the following statistically sound method for estimating this count.

1. Count the number of titles in one inch of the shelflist cards in the shelflist;
2. Repeat step one at random intervals (e.g., count one inch in every foot) throughout the shelflist;
3. Average the number of titles per inch;
4. Multiply the average titles per inch by the number of inches of cards in the shelflist.

51. VOLUMES. (Line 56). For reporting purposes, a volume is a cataloged physical unit of any printed, typewritten, handwritten, mimeographed, or processed work, contained in one binding or portfolio, hardbound or paperbound, which has been cataloged, classified, and made ready for use.
52. PERIODICALS. (Lines 59 - 61). A periodical is a publication constituting one issue in a continuous series under the same title published at regular or irregular intervals, over an indefinite period, individual issues in the series being numbered consecutively or each issue being dated. Newspapers as well as publications appearing annually or less frequently are included in the definition.
53. CURRENT PERIODICAL SUBSCRIPTIONS. (Line 61). Report number of titles subscribed to during fiscal year, and not number of individual issues (exclude duplicate subscriptions).
54. PAMPHLET - (Line 62) Definition: a complete unbound non-periodical publication of usually not fewer than 5 nor more than 48 pages, exclusive of covers. A pamphlet is usually bound with a cover of the same weight as or slightly heavier paper than that of its content pages.
55. MICROFORMS. (Lines 63 - 65). Microforms are materials that have been photographically reduced in size for storage, protection, and inexpensive publication purposes, and which must be read with the help of enlarging instruments. Examples of microforms are: microfilm, microcard, and microfiche. These are also called microcopy and microtext.
56. NUMBER OF PHYSICAL UNITS OF MICROFORMS. (Line 65). A total of microform holdings should be reported here. For reporting purposes, each item of microfiche, microfilm, and microcards should be counted as "One."

These are nonbook library materials which require the use of special equipment in order to be seen and/or heard (exclude microforms; include super 8mm/8mm/16mm/ films, videoreels/cassettes/discs, records, audio tapes/reels/cassettes/cartridge, filmstrips, slide sets, multi-media kits, transparency sets)
58. NOTE. A new category of number of titles/video material has been added. (Line 68) This includes video cassettes, reels, discs.

The number entered on this line should reflect the number of times a bulk loan/rotating collection is received each year. DO NOT include any bulk loans which are created in your library and sent out.

PART VII - REFERENCE REQUESTS. (Lines 87 - 90 Attached survey form).

63. REFERENCE REQUEST. These are requests for either a distinct piece of information or guidance in the research of a more general topic. Reference request is considered synonymous with information request.

PART VIII - LIBRARY PHYSICAL FACILITIES (Lines 91 - 98 Attached survey form).

64. Lines 91 - 93 should include combined data for all branches and the central library. Net area (line 91) must always be given in square feet. Length of shelves (line 92) must be given in lineal feet.
65. Lines 94 - 98 give data for central library only.

PART IX - CONTINUING EDUCATION (lines 99 - 101) Please be certain to fill in name and location of library at the beginning of this section. This material will be tabulated separately and may not be displayed with the rest of Statistics 79.
